GasBuddy Cost Per "Regular" Gallon

Deliver-It uses the Los Angeles historical gas price chart from GasBuddy.com as the index for fuel surcharges. The fuel surcharge is adjusted monthly, effective on the first (1st) of each month. The surcharge is based on the rate posted on the last day immediately preceding the beginning of each month for regular unleaded fuel, rounded up to the nearest penny. The GasBuddy Historical Price Chart can be found at www.losangelesgasprices.com. The fuel surcharge is calculated at 0.5% for each \$0.10 increase in regular unleaded fuel. The baseline for the fuel calculation is \$1.95 per gallon. The fuel surcharge is subject to change per the above fuel surcharge table.
